Based on a Survey of Small and Independent Business Owners

# NFIB SMALL BUSINESS ECONOMIC TRENDS

NFIB Research Center has collected Small Business Economic Trends Data with Quarterly surveys since 1973 and monthly surveys since 1986. The sample is drawn from the membership files of the National Federation of Independent Business (NFIB). Each was mailed a questionnaire and one reminder. Subscriptions for twelve monthly SBET issues are \$250. Historical and unadjusted data are available, along with a copy of the questionnaire, from the NFIB Research Center. You may reproduce Small Business Economic Trends items if you cite the publication name and date and note it is a copyright of the NFIB Research Center. © NFIB Research Center. ISBS #0940791-24-2. Chief Economist William C. Dunkelberg and Executive Director of the NFIB Research Center Holly Wade are responsible for the report.

# SUMMARY

# **OPTIMISM INDEX**

Small business optimism expands on an improved economic outlook post-election. The Optimism Index rose by 3.4 points in December to 105.1, the second consecutive month above the 51-year average of 98. This is the highest reading since October 2018. Of the 10 Optimism Index components, seven increased, two decreased, and one was unchanged. The Uncertainty Index declined 12 points to 86, as business owners became more certain about economic policies following the election.

# LABOR MARKETS

In December, 35 percent (seasonally adjusted) of all owners reported job openings they could not fill in the current period, down 1 point from November. Twenty-nine percent have openings for skilled workers (down 1 point) and 13 percent have openings for unskilled labor (unchanged). The difficulty in filling open positions is particularly acute in transportation, construction, and manufacturing industries. Job openings in construction were down 13 points from last month and down 17 points from the prior year, with 41 percent reporting a job opening they cannot fill. Openings were the lowest in the agriculture and finance industries. A seasonally adjusted net 19 percent of owners plan to create new jobs in the next three months, up 1 point from November. The last time hiring plans were this high was May 2023. Overall, 55 percent reported hiring or trying to hire in December, unchanged from November. Forty-nine percent (89 percent of those hiring or trying to hire) of owners reported few or no gualified applicants for the positions they were trying to fill (up 1 point). Twentyeight percent of owners reported few gualified applicants for their open positions (down 1 point) and 21 percent reported none (up 2 points). The percent of small business owners reporting labor quality as the single most important problem for business was unchanged from November at 19 percent. Labor costs reported as the single most important problem for business owners was unchanged from November at 11 percent, only 2 points below the highest reading of 13 percent reached in December 2021.

# **CAPITAL SPENDING**

Fifty-six percent reported capital outlays in the last six months, up 2 points from November. Of those making expenditures, 37 percent reported spending on new equipment (down 2 points), 24 percent acquired vehicles (up 2 points), and 16 percent improved or expanded facilities (up 2 points). Eleven percent spent money on new fixtures and furniture (down 1 point) and 7 percent acquired new buildings or land for expansion (unchanged). Twenty-seven percent (seasonally adjusted) plan capital outlays in the next six months, down 1 point from November's highest reading since January 2022.

This survey was conducted in December 2024. A sample of 5,000 small-business owners/members was drawn. Five hundred thirteen (513) usable responses were received — a response rate of 10.3 percent.

# SALES AND INVENTORIES

A net negative 13 percent of all owners (seasonally adjusted) reported higher nominal sales in the past three months, unchanged from November. The net percent of owners expecting higher real sales volumes rose 8 points to a net 22 percent (seasonally adjusted). This is the highest reading since January 2020. The net percent of owners reporting inventory gains rose 7 points to a net 0 percent (seasonally adjusted). Not seasonally adjusted, 13 percent reported increases in stocks (up 3 points) and 14 percent reported reductions (down 2 points). A net negative 1 percent (seasonally adjusted) of owners viewed current inventory stocks as "too low" in December, up 1 point from November (e.g., inventory stocks are too large relative to expected sales). A net 6 percent (seasonally adjusted) of owners plan inventory investment in the coming months, up 5 points from November and the highest reading since December 2021.

# COMPENSATION AND EARNINGS

Seasonally adjusted, a net 29 percent reported raising compensation, down 3 points from November and the lowest reading since March 2021. A seasonally adjusted net 24 percent plan to raise compensation in the next three months, down 4 points from November. The frequency of reports of positive profit trends was a net negative 26 percent (seasonally adjusted), unchanged from November. Among owners reporting lower profits, 35 percent blamed weaker sales, 13 percent cited usual seasonal change, 12 percent blamed the rise in the cost of materials, and 11 percent cited labor costs. For owners reporting higher profits, 51 percent credited sales volumes, 22 percent cited usual seasonal change, and 7 percent cited higher selling prices.

# **CREDIT MARKETS**

Two percent of owners reported that all their borrowing needs were not satisfied, down 2 points from November. Twenty-four percent reported all credit needs met (down 2 points) and 65 percent said they were not interested in a loan (up 3 points). A net 4 percent reported their last loan was harder to get than in previous attempts (down 3 points). Four percent reported that financing was their top business problem in December (down 1 point). A net 1 percent of owners reported paying a higher rate on their most recent loan, down 4 points from November and the lowest reading since September 2021. The average rate paid on short maturity loans was 8.7 percent, down 0.1 of a point from November. Twenty-five percent of all owners reported borrowing on a regular basis, down 3 points from November.

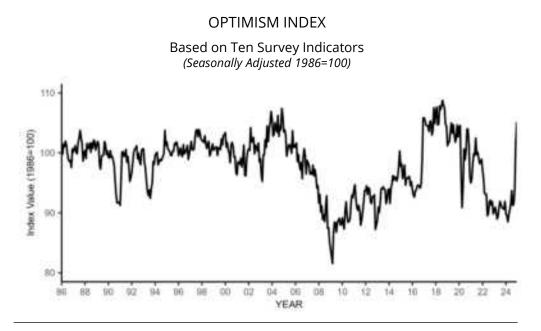

# INFLATION

The net percent of owners raising average selling prices was unchanged from November at a net 24 percent seasonally adjusted. Twenty percent of owners reported that inflation was their single most important problem in operating their business (higher input and labor costs), unchanged from November and leading labor quality as the top issue by 1 point. Unadjusted, 11 percent (unchanged) reported lower average selling prices and 31 percent (down 1 point) reported higher average prices. Price hikes were most frequent in the finance (56 percent higher, 15 percent lower), retail (38 percent higher, 6 percent lower), construction (30 percent higher, 9 percent lower) and transportation (30 percent higher, 9 percent lower) sectors. Seasonally adjusted, a net 28 percent plan price hikes in December (unchanged). For the first 10 months of 2016, the Optimism Index averaged 94. Then there was the presidential election in November and the Index soared to 105.9. From January 2022 to October 2024, the Index averaged 94 (the 51-year average is 98), a poor showing. But in December 2024, the Index surged to 105.1, very similar to 2016. The years under Trump delivered, solid growth, low unemployment, and inflation under 2 percent. But results like that are not guaranteed by solid optimism. Sound economic policies and luck are needed to produce good economic outcomes.

Based on election polls, the top concern of voters was inflation. Currently, inflation is under 3 percent, but above the 2 percent Fed target. More likely the issue is the 20 percent increase in selling prices (CPI) since 2020, consumers want prices to fall, not continue to rise even if at a very low inflation rate. Small business owners share the same sentiment, high prices (costs) are the concern, not the rate of price increases. Inflation remains the top business problem, just ahead of the quality of labor in second place. The cost of energy impacts virtually all products and was a major factor impacting the good inflation experience from 2016-2020. Policies that expand energy production and lower energy prices would contribute to lower inflation and even falling prices.

Taxes will be a top policy focus as well, with a promise to preserve the TCJA tax cuts passed in 2017. This is a top concern for small business owners and important tax-related legislation will be an early agenda item for the new administration. Deregulation will also be a welcomed reversal from the previous administration's agenda that caused much consternation among the small business community.

It will be a noisy first year, with many distractions including the wars involving Israel and Ukraine, talk about the Panama Canal and Greenland, and relations with Russia and China. Domestically, there are plenty of headaches including the border, crime, and activist activities. Natural disasters (fires, floods, storms) will continue to demand attention. The Fed will likely cut rates by 50 basis points during the year. All this with a new team of managers. It will be a bumpy ride.

| Small Business Survey Questions  | PAGE IN REPORT |
|--|----------------|
|  |                |
| Do you think the next three months will be a good time<br>for small business to expand substantially? Why?   | 5              |
| About the economy in general, do you think that six<br>months from now general business conditions will be<br>better than they are now, about the same, or worse?          | 6              |
| Were your net earnings or "income" (after taxes) from your business during the last calendar quarter higher, lower, or about the same as they were for the quarter before? | 7              |
| If higher or lower, what is the most important reason?   | 7              |
| During the last calendar quarter, was your dollar sales volume higher, lower, or about the same as it was for the quarter before?  | 8              |
| Overall, what do you expect to happen to real volume<br>(number of units) of goods and/or services that you will<br>sell during the next three months?                     | 8              |
| How are your average selling prices compared to three months ago?  | 9              |
| In the next three months, do you plan to change the average selling prices of your goods and/or services?  | 9              |
| During the last three months, did the total number of employ<br>in your firm increase, decrease, or stay about the same?   |                |
| If you have filled or attempted to fill any job openings<br>in the past three months, how many qualified applicants<br>were there for the position(s)?                     | 10             |
| Do you have any job openings that you are not able<br>to fill right now?   |                |
| In the next three months, do you expect to increase or decrease the total number of people working for you?  | 11             |
| Over the past three months, did you change the average employee compensation?  | 12             |
| Do you plan to change average employee compensation during the next three months?  | 12             |

| SMALL BUSINESS SURVEY QUESTIONS  | PAGE IN REPORT |
|--|----------------|
| Areloans easier or harder to get than they were three months ago?  | 13             |
| During the last three months, was your firm able to satisfy its borrowing needs?   | 14             |
| Do you expect to find it easier or harder to obtain your required financing during the next three months?  | 14             |
| If you borrow money regularly (at least once every three<br>months) as part of your business activity, how does the<br>rate of interest payable on your most recent loan compare<br>with that paid three months ago? | 15             |
| If you borrowed within the last three months for business<br>purposes, and the loan maturity (pay back period) was 1<br>year or less, what interest rate did you pay?  | 15             |
| During the last three months, did you increase or decrease your inventories?   | 16             |
| At the present time, do you feel your inventories are too<br>large, about right, or inadequate?  | 16             |
| Looking ahead to the next three months to six months,<br>do you expect, on balance, to add to your inventories,<br>keep them about the same, or decrease them?   | 16             |
| During the last six months, has your firm made any capital expenditures to improve or purchase equipment, buildings, or land?  | 17             |
| If [your firm made any capital expenditures], what was the total cost of all these projects?   | 18             |
| Looking ahead to the next three to six months, do you<br>expect to make any capital expenditures for plant<br>and/or physical equipment?   | . 18           |
| What is the single most important problem facing your business today?  | 19             |
| Please classify your major business activity, using one of the categories of example below   | . 20           |
| How many employees do you have full and part-time, including yourself?   | 20             |
